

Who Am I?

Name: Lawrence David Kutchey (Larry)

KIA, RVN: November 25, 1968

Company: B

Platoon: 2

Squad: 2

email: C/O his nephew Jeremy Guc jguc97@yahoo.com

We have these pictures from our fallen Brother, Larry Kutchey due to the kind labors of his newpew Jeremy.

(Album publishers note follows:) Larry was in my squad, and was in country before myself. He was selfless and often walked point without complaint. When we were in "new territory" our platoon leader regularly called on Larry to walk point because of his skill. Larry was well liked and made sure all of us new guys were taught the survival skills he had learned ahead of us. I'm proud to say I served with him. He did not give his life in vain.

wounding him in both thighs but missing

A10.jpg | (following annotation from Steve Irvine). Larry took this picture at some rest point on a road sweep. I was the new guy and Larry helped me a great deal with learning the ropes in our squad. He walked point a lot and was very good at it. Rest in Peace Larry, and thank you from all of us you willingly helped. (653x458)
