I was in country from August 1968 to July 1969. When I first got in country we were living in tent city on the backside of Tan Son Nhut AFB. We left and went to Cu Chi, then to Dau Tieng and I finished up at Tay Ninh. Did re-supply convoys and was attached to C co for a little while. Met some good folks while in country and got to see some pretty areas too. I thought the rubber plantation was neat. Can't say much more, I don't remember too much. Thanks, Jackie Lewis
