Mike Groves was a handsome young man and....

in shape is very important in my life. I truly have a calling in Volunteering at my church and local groups such as Habitat for Humanity since 1997. Serving with so many talented guys in my Unit in Vietnam was a blessing.

He turned into an elegant middle age gentleman.

Raymond Lee and Tom Izbicky in Vietnam (1967) and now.

Clark Lohman sure looks like lean, mean fighting machine in Nam. He sure had his share of action and he is one of those guys that the rest of us, especially those that didn't serve, should be thankful to.

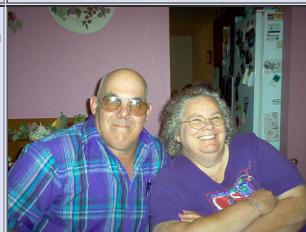

This citizen warrior sure looks happy with his wife of 38 years Barbara and his granddaughter Katie. Clark, hope to have a few cold ones with you in Kansas City.

Dennis Luiz in Nam, he was 20 years old in this photo. Dennis served in Nam from September 68 to September 69. He was with A company and he saved his platoon leader, LT. Nash, and his RTO "Lumpy" lives during a fire fight. Dennis stayed in the military and served Ft. Ord, CA, Germany, Hawaii, Ft. Stewart, GA and Ft. Lewis, WA. He has three daughters,

two of them born in Germany and one in Georgia. In 1970 Dennis broke his wrist and couldn't be in the Infantry any longer, so he became a mechanic. Dennis is now retired, prematurely, due to a heart condition. He says he is taking care of himself.

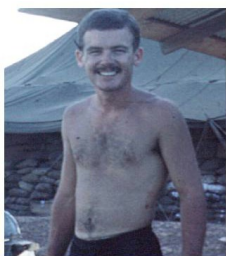

Dennis met his wife Pennie in High School and married her after basic and AIT in 1968. They live in Lakewood, WA.

Pennie and Dennis Luiz enjoying 37 years of marriage.

Jim May in Nam.

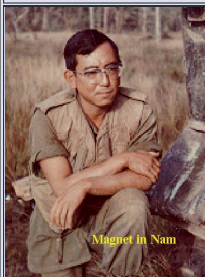

Jim May now, he is the dry one.

Today, happy...

Norm had a special knack to
attract shrapnel and earned
the nick-name magnet. He
earned 4 Purple Hearts in
Nam.

Magnet is an electronic
engineer and is the
editor of our
newsletter.

Jerry and Renee. They dress like this everyday.

Mike Pounds put himself back in the past cybernetically. You can see why the straight legs were jealous of us and the stuff we carried.

Mario Salazar HHC/2/22 Mz in Nam 1967

Irene (the pretty one) has been married to the hunk to her right for 30+ years (she should get a presidential citation for valor). Mario smiles because he knows he has been extremely lucky and has it "real good."

Mario,
Got this from Paul Engle. The guy on the left is Tom Firtl, center is Paul Engle, the right is me. Engle got the Silver Star, and I think Firtl did also, but I am not sure. Engle and Firtl were in B Co. 2/22 Weapons Plt. and Boat Origionals. The picture must have been graduating from basic, but it looks like a jet engine between us, but we have no patches on, so I am not sure of the time the picture was taken. Just thought I would share the picture.
